

# Reporting changes at The Hastings Academy

There have been some key changes in education over the last few years such as: the reform of GCSEs; a new curriculum in Key Stage 1 to 3, and the removal of the level system of descriptors. The following information will explain how The Hastings Academy will be working to address the challenge of these changes.

### What are the main changes to GCSEs?

- GCSE qualifications will be linear, with examinations at the end of the course
- The content will be more demanding
- Non-exam assessment (coursework) will be removed or reduced in the majority of GCSEs
- The new GCSEs will be assessed with grade 9 to 1

**Ofqual**

**New GCSE grading structure**

New grading structure	Current grading structure
9	
8	A*
7	A
6	B
5	
4	C
3	D
2	E
1	F
	G
U	U

**GOOD PASS (DfE)**  
5 and above = top of C and above

**AWARDING**  
4 and above = bottom of C and above

## The timescale for GCSE changes

Reformed GCSEs will be introduced gradually over three years from September 2016. They will be graded from 9 to 1, instead of A\* to G. Students taking GCSEs over this period will therefore receive a mixture of 9 to 1 and A\* to G grades.

If your child is in ...	Grades 1 to 9	Grades A* - G
<b>Year 11</b>	Mathematics English Language, English Literature	All other subjects
<b>Year 10</b>	Art & Design, Biology, Chemistry, Combined Science (Double Award), Computer Science, Dance, Drama, Food Preparation & Nutrition, French, Geography, History, Latin, Music, Physical Education, Physics, Spanish	Ancient History, Business, Design & Technology, Media Studies, Sociology, Statistics
<b>Years 7, 8 and 9</b>	All subjects	

## What are the main changes at The Hastings Academy

- The curriculum at Key Stage 3 and 4 has become more demanding.
- All students from Year 7 to 11 will have 9-1 GCSE target .
- Reports will indicate a student's progress towards these targets.

## Why remove National Curriculum levels?

When the Government launched a new curriculum, they also asked an 'Expert Panel' to review the national assessment strategies and procedures of schools. As a consequence of their findings, the Government has removed level descriptors.

Here is a summary of the main findings of the panel, chaired by Tim Oates.

- Levels resulted in children labelling themselves.
- Levels created in 'undue pace' - focus was on getting children to move quickly through levels, whereas the focus should be on ensuring children have achieved deep understanding
- Levels are an odd idea - a child overall can average out at a level, so validity is low.
- Levels can convey the wrong idea of ability.

The core principle shared by the Expert Panel was namely; 'Fewer things in greater depth', rather than moving through the levels at pace. Therefore schools have been tasked with creating depth within their curriculum offer in all subjects. We have embraced this in developing our new Key Stage 3 mastery curriculum.

If you would like further information on the Government Expert Panel please watch this video online:

Parents and carers may also want to familiarise themselves with the Attainment 8 and Progress 8 measures that students will be measured against when sitting their exams in Year 11. A guide to this can also be found on the academy's website.
